

# VELOCITY 160IR

ONE TEMP - DUAL VAPOR GENERATOR

The Velocity 160IR is built for ease-of-use with one temperature safe for all fabrics. The Velocity 160IR's patented built-in steam generator produces up to 55% more steam than traditional steam irons for perfect ironing in less time.

While traditional irons are prone to leaking and spitting, the Velocity irons use a patented 2-heating element and micro-pump technology that pre-heats the water and turns it into steam before it reaches the soleplate. The Velocity 160IR iron will give you perfect constant steam at one constant temperature that is safe for all fabrics.
